

Custom Program Eligibility Information

Available to customers taking metered service under the Company's Industrial Power (IP) and Contract Service Interruptible Power (CS-IRP2) tariffs, or multiple General Service and / or Large General Service tariff accounts with common ownership under a single parent company that can aggregate multiple accounts to exceed 1,000 kW monthly peak demand over a 12-month average.

Charges for service under this option will be set forth in the written agreement between the Company and the Customer and will reflect a combination of the tariff service rates otherwise available to the Customer and the cost of the renewable energy being contracted for by the Customer.

Term of written agreement must be a minimum of one year and will be determined in the written agreement between the Company and the Customer.
