

LEGAL NOTICE  
STATE OF INDIANA  
INDIANA UTILITY REGULATORY COMMISSION

Indiana Michigan Power Company (I&M), an Indiana corporation, gives notice that on or before February 15, 2023, it will submit for approval under the Indiana Utility Regulatory Commission's (IURC) thirty-day filing process a request to approve updated monthly per kWh rates for the IM Green Rider, Local and National Renewable Program options, to be effective the first billing cycle of the month following a decision in this case. The referenced filing will consist of I&M's calculations of the new per kWh rate based on the average rate of the New Jersey Class I Renewable Energy Certificate (REC) and the GE National Wind REC index (representative of national Green-E pricing) market rates over the six-month period of July 1, 2022, through December 30, 2022, as published in S&P Global Renewable Energy Certificate Index. I&M customers potentially affected by this filing include those already in the IM Green program and others interested in voluntarily supporting the development of electricity generated by renewable energy resources by subscribing to purchase renewable energy certificates under the IM Green Rider Local and National Renewable options. A decision on the updated IM Green Rider per kWh REC pricing should be received from the IURC on or before March 29, 2023.

Please direct inquiries to:

Indiana Michigan Power Company
